

Haribo UK – Dunhills (Pontefract) Plc Procurement Policy

Kids and Grown-ups Love It So, the Happy World of Haribo

Our World, Our Environment, Our Responsibility

At Haribo UK we aim to procure all goods and services in a responsible and sustainable manner. Sustainable development is at the core of our operation.

We will consider social, economic, health, safety, environmental, food safety and quality issues at every stage of our supply chain and work with our suppliers, customers, internal stakeholders and sector organisations to implement improvements.

We require all our suppliers to comply with all applicable laws and regulations.

We will give preference to suppliers who go beyond compliance.

We work in partnership with our suppliers to create a proactive, sustainable approach to procurement, leading to long lasting strategic relationships.

We consider the life cycle of all goods procured and ensure environmental concerns are at the heart of the decisions we make.

We challenge our suppliers to offer Haribo and its consumer's excellent levels of service, quality and value for money. We monitor this performance on an ongoing basis.

We will continuously strive for improvement and update our policy to reflect our progress.

This policy is reviewed and updated annually.
